PRESS RELEASE
SUV-PERFORMANCE
Eibach Pro-Kit and Pro-Spacer for the Porsche Macan S

The Porsche Macan is a modern Sport Utility Vehicle which stands out in any crowd or situation. With Eibach Suspension Components, its handling and appearance gets even more dynamic.

The Eibach Pro-Kit Performance Springs lower the Porsche Macan's centre of gravity – making it more agile and look additionally striking.

The Eibach Pro-Spacer Wheel Spacers made of aluminum round off the Porsche's energetic appearance. The muscular SUV becomes a real eye-catcher – on every terrain.

All Eibach Suspension Components, which are available through authorised dealers, are provided with a high-quality corrosion protection and are TÜV-certified.

For further information, please contact our sales hotline: +49 2721 . 511-342.

PRO-KIT

- top-performance handling
- lower centre of gravity — lowers vehicle up to 40 mm (depending on car model)
- progressive spring design
- excellent ride quality
- part of the Eibach B12 Pro-Kit

PRO-SPACER

- widen your stance – for better handling and appearance
- made from high-tensile-strength aluminum alloy
- exact fitment by using minimal production tolerances, resulting in exceptional wheel balance
- all applications tested in rigid durability- and fatigue tests
- high-grade corrosion protection through a special coating process (salt spray test according to DIN 50021)
- significant weight advantage compared to wheel spacers made from steel
